Harpal Sinh Jhala

Senior Data Analyst

@ harpalsinhjhala13@gmail.com Linkedin Open to Relocate to UAE

SUMMARY

Results-driven data analyst with 4+ years of experience in designing end-to-end data analytics solutions, Power BI reports, and ETL pipelines across BFSI — including insurance, stock brokerage, real estate, and banking domains. Expertise in Power BI, DAX, SQL, and dimensional modelling, combined with hands-on exposure to MENA insurance analytics covering profitability, claims ratio, and loss ratio, translating complex datasets into actionable insights for senior stakeholders. Successfully led BI teams end-to-end across requirements gathering, sprint planning, and delivery. Built enterprise data warehouses and semantic layers independently. Delivered measurable business outcomes including a 15% brokerage revenue increase and 90%+ reduction in client reporting turnaround time. Hands-on expertise in Microsoft Azure and Microsoft Fabric, targeting scalable BI delivery across MENA financial services.

SKILLS

Microsoft Power BI | DAX | SQL | Power Query (M Query) | ETL Pipelines | Dimensional Modelling | Data Modelling | Microsoft Azure | Data Warehouse | Microsoft Excel | Power Automate | Azure Data Lake | SSMS | Microsoft Fabric | Azure Data Factory | Requirement Gathering | Agile / Sprint Planning | Stakeholder Management | Financial Reporting | MIS Reporting

EXPERIENCE

Senior Data Analyst

WhiteBlue Cloud Services

03/2025 - Present

Tools: **SQL, Power BI, Azure Data Lake, DAX, Excel.** **MENA Client: Qatar Insurance Group**

- Built **14 executive-level Power BI reports** for CFO, Senior VP, and C-suite covering insurance profitability, claims ratio, loss ratio, and disease burden analytics.
- Automated client reporting pipeline integrating Power BI with PowerPoint generation, **reducing a 2-day manual task to under 2 hours, resulting in a 90%+** turnaround time reduction.
- Built BI reporting infrastructure aligned with **UAE data governance and regulatory compliance** standards.
- Designed **5 Power BI reports** for **Adani Green Energy** tracking real-time cash flow and operational KPIs across 1,000+ energy plants.
- Built a ports efficiency reporting model that **reduced CAPEX planning uncertainty** for senior leadership.

BI Developer

Kunvarji Group - Techaxion (Axion Info Services Pvt. Ltd.)

02/2024 - 03/2025

Tools: **SQL Server, Power BI, DAX, SSMS, ETL**

- Led the **architecture** and development of a **master enterprise data warehouse** across stock brokerage, real estate, and insurance verticals.
- Built end-to-end SQL Server infrastructure covering table structuring, views, stored procedures, and ETL pipelines.
- Delivered a BFSI reporting suite covering trade analytics, client revenue, and active/passive client behavior.
- **Led a team of 3 analysts** across requirements gathering, sprint planning, and Power BI delivery.
- Identified **30% of real estate revenue locked in NPAs** through targeted reporting.
- Drove **15% brokerage revenue increase** by building inactive account analytics.

Data Analyst

Byju's (Think and Learn Pvt. Ltd.)

09/2022 - 09/2023

Tools: **SQL, Power BI, Excel**

- Designed and maintained **Power BI reports and automated reporting pipelines** for the Academics department.
- Handled **ERP data management** and ensured data quality through SQL integration, transformation, and validation processes.
- Delivered operational insights and ad hoc analytics to senior stakeholders, reducing manual reporting effort across business units.

PROJECTS

Real Estate Business Analytics Dashboard

https://shorturl.at/SJLOa

Real Estate Business Analytics Dashboard | SQL, Power BI, DAX

- Built a profitability and client segmentation model identifying **30% of total revenue** tied to NPAs.
  Delivered property performance and sales trend analytics across multiple verticals.

Stock Brokerage Analytics Dashboard

https://shorturl.at/Cfz5G

Stock Brokerage Analytics Dashboard | SQL, Power BI, DAX

- Enabled sales teams to identify high-potential HNI clients through segment-wise trade and revenue analytics.
- Built active/passive client behavior tracking that helped relationship managers prioritize advisory efforts.

HR Management Dashboard

https://shorturl.at/Kxs1M

HR Management Dashboard | SQL, Power BI

- Designed workforce analytics covering attrition patterns, hiring funnel, and headcount trends.
- Achieved 20% reduction in attrition by surfacing early warning indicators to HR leadership.
